

PARAGLIDING FLY TOURS

Sicily Island - Italy ➔

With special guiding by XC world champion Marco Busetta - Etna fly team
www.etnafly.com

To have seen Italy without having seen Sicily is not to have seen Italy at all, for Sicily is the clue to everything."

So wrote Johann Wolfgang Von Goethe, after visiting the island in 1787. What the famous playwright said remains unchanged to this day, especially when enriched by the **possibility of flying over it!** A flying journey in Sicily will enrich your soul through all your senses. The island is a blend of everything - pleasant climate, active volcanoes, beautiful ridges, food, scents and cultures due to its special central Mediterranean location.

Come and discover how incredible could be a trip guided by Etna Fly staff, led by Marco Busetta, who will take you on a journey to explore a wide range of flights, from the simplest and friendly flight above the sea to the most incredible convergence cross-country that only this island can offer, along with excellent and typical food.

A blend of experiences that will certainly make **you want to come back.**
